## Repair cost examples

**LIGHT**

- Brake lever\*:  
The part needs to be replaced completely: 1,263 yen.  
It would take 10% of an hour to exchange:  
Hourly labor cost 10,800 yen x 0.1 = 1,080 yen.  
Total cost = 2,343 yen.

\*This is in a case of a Honda CB400.  
Cost of the parts may vary with the motorcycle brand and model

**SMALL**

- Muffler:  
The part does not need to be replaced.  
The scratches are the size of two 500 yen coins; 40% of the muffler cost.  
Muffler; 62,316 yen x 40% = 24,926 yen.  
Muffler guard; 3,294 x 40% = 1,317 yen.  
Total cost = 26,243 yen.

**MED**

- Muffler\*\*:  
The part needs to be replaced.  
Muffler; 80,028 yen x 100% = 80,028 yen.  
Labor cost; 10,800 x 0.3 = 3,240 yen.  
Business interruption fee = 20,000 yen.  
Total cost = 103,268 yen.

\*\*In case of damage to several parts, for example say the motorcycle is dropped on the left side, and then on the right side, the damages will add up.

In case of a P4 class motorcycle with CDW, the amount to pay would be 50,000 yen of the deductible + 20,000 yen of the business interruption fee = 70,000 yen.
